I have seen it used in two cases with happy results—one a case of secondary apphilis, in which the patient pronounced himself cured after having taken five bottles of your medicine. The other a case of scrotula, of long standing, which is rapidle improving under its use, and the indications are that the patient will soon recover. I have carefully examined the formula by which your Kosedaris is made, and find it an excellent compound of alterative ingredients.

Dr. J. J. Lawrence: Dear Sir—My youngest daughter, aged five years, has been dreadfully afficted with Scrofula nearly all her life. I tried a great many physicians, but without relieving her much; in fact, most of them said there was no hope of cure. During the last spring she was worse than ever; her body and limbs being covered with sores and blotches—with face and eyes badly ulce ated and swollen. While in this condition I was advised by Dr. L. A. Stith to try your Rosadalis. I at once procured three bottles, and commenced giving it to her. The effect was magical. In less than a month to my great astonishment, she was entirely
